

NEW PRODUCT LAUNCH

Aspire Comfy Sleeper Chair-Bed – Now Available!

Introducing the second generation of our Sleeper Chair-Bed, replacing the incumbent Happy Sleeper Chair. Our new Comfy Sleeper Chair-Bed is designed to provide comfort and functionality in healthcare environments.

The Comfy Sleeper seamlessly transitions between a chair and a bed in seconds, requiring no tools for adjustment.

PRODUCT FEATURES

- **Infection Control:** Designed with antimicrobial foam and medical-grade silicone vinyl, it meets stringent cleaning requirements for acute care environments.
- **Versatile Transformation:** With an intuitive single-hand activation, the chair effortlessly transforms into a comfortable sleeping surface. This dual-purpose design conserves space and offers loved ones the opportunity to stay close to the patient.
- **Optimal Comfort:** The sleeping surface goes completely flat, which together with soft cushioning and soft silicone vinyl covering, provides a sleeping experience akin to a luxurious bed, not your typical fold-out chair, designed to optimise rest and ensure a comfortable stay.
- **Effortless Assembly:** The chair can be quickly assembled and disassembled without the need for any tools.
- **Easy Mobility:** Equipped with recessed locking castors, the chair is easily repositioned by users or manoeuvred by cleaning staff.
